

AirSep® Focus™

PORTABLE OXYGEN CONCENTRATOR

WORLD'S SMALLEST AND LIGHTEST

Less than 2 pounds (0.9 kg) and small enough to fit in the palm of your hand, oxygen users love having the ability to ambulate and stay active like never before with the smallest and lightest portable concentrator on the market today.

Increase your referrals by giving your oxygen user the lightweight device they ask for most, while still eliminating expensive deliveries and maximizing your profits.

• Unlimited Ambulation

Give your oxygen users unprecedented freedom that promotes an active lifestyle and higher quality of life. Equipped with 3 hours of standard battery life, additional batteries can be swapped out for extended durations. Each battery weighs only ½ pound (.23 kg).

• Ideal for Early Stage Diseases

Producing pulse setting 2 — the most common prescription for new oxygen users — this device is perfect for the most active users without adding the extra weight or cost of higher flow units.

• UltraSense™ Technology

With the most sensitive pulse dose trigger on the market — UltraSense™ Technology — this device ensures a pulse of oxygen is delivered with each breath, that no breaths are skipped, and that the pulse is delivered in the first ⅓ of the breath when it is most critical.

PROVIDER FEATURES

- Setting 2 covers majority of new oxygen users
- Non-delivery O₂ modality eliminates expensive deliveries
- Drive O₂ referrals with the smallest device that is most attractive to patients
- Standard 3-year warranty includes sieve beds

PATIENT FEATURES

- World's smallest and lightest concentrator
- Simple to use – no settings to adjust and one touch operation
- No patient maintenance
- Wearable via belt clip, carry handle or shoulder strap
- Can swap and exchange batteries for long durations
- Fully functional on AC or DC power
- FAA approved

CLINICAL FEATURES

- UltraSense™ Technology is the most sensitive breath detection on the market
- Quickly detects and pulses to ensure delivery in the first 1/3 of a breath
- Adjusts bolus size based on breath rate
- Lightweight, promotes greater ambulation, higher quality of life, and better therapy

SPECIFICATIONS

Flow Rate	Pulse 2
Dimensions	6.4 x 4.8 x 2.5 in (16.4 x 12.2 x 6.1 cm)
Weight (Focus Only)	1.75 lbs (0.8 kg)
Battery Weight	0.5 lbs (0.2 kg)
Battery Duration	3 hrs (1.5 per battery – 2 included)
Battery Re-Charge	4 hours
Warm-Up Time	< 2 minutes
AC Power	100–240 VAC, 50–60 Hz
DC Power	11–16 VDC Nominal
Operating Temp.	41°F to 104°F (5°C to 40°C)
Sound Level	45 dB(A) @ Setting 2
Operating Altitude	Up to 10,000 ft (3048 m)
O ₂ Concentration	90% (+5.5% / -3%)
O ₂ Output	332.5 mL
Warranty	3 years Focus 1 year battery & power supplies
Maximum Tubing	25 ft (7.62 m)
