

AirSep® FreeStyle™ 5

PORTABLE OXYGEN CONCENTRATOR

FREEDOM HAS A NEW LOOK

CAIRE introduces important updates to its high capacity portable oxygen concentrator — the AirSep® FreeStyle™ 5. The new design adds features and benefits that will not only make the device more appealing to patients, but even more reliable for providers.

- **New Power Supply Connection**

Now featuring **multi-directional installation** with **no pins to align** and **no release button to press**, it is easier than ever to re-charge on the go.

Robust **metal connection points** ensure the highest durability of both the power supply and FreeStyle 5 for patients and provider alike.

- **New User-Replaceable Battery**

Swap battery packs on the go instead of waiting to re-charge an internal battery or having to add heavy external batteries. The battery pack will **re-charge anytime AC or DC power is connected** and is easily accessible from the front of the device.

- **Longer Battery Life**

The new battery pack provides an additional **30 minutes of duration** at setting 2, providing up to **2 ½ hours with a single battery pack at setting 2**.

- **New Color Scheme**

New color scheme is **more appealing** and **non-medical** in appearance. The matte finish will help providers by **resisting everyday scratches**.

PROVIDER FEATURES

- Settings 1-5 covers widest range of patients with a single device as their disease progresses
- Non-delivery modality that eliminates expensive deliveries.
- Time-proven and trusted quality
- Standard 3-year warranty includes sieve beds
- Increase referrals and prescriptions

PATIENT FEATURES

- User-replaceable battery pack with up to 2½ hour battery life at setting 2.
- Easily wearable with a handle, shoulder strap, or backpack.
- FAA Approved
- Fully functional on AC or DC power.
- Simple, One-Touch Operation

CLINICAL FEATURES

- UltraSense™ Technology is the most sensitive breath detection on the market.
- Quickly detects and pulses oxygen to ensure delivery in the first 1/3 of the breath.
- Adjusts bolus size based on breath rate.
- Up to 1000 mL/min oxygen output to easily saturate high volume patients

SPECIFICATIONS

Flow Rates	Pulse 1-5
Dimensions	10.7 x 6.6 x 4.4 in (27.2 x 16.8 x 11.2 cm)
Weight (w/Battery)	6.7 lbs (3.0 kg)
AC Power	100-240 VAC, 50-60Hz (2 amp max)
DC Power	12-24 VDC (15 amp max)
Operating Temp.	41°F to 104°F (5°C to 40°C)
Sound Level	48 dB(A) @ Setting 3
Operating Altitude	Up to 12,000 ft (3657.6 m)
O2 Concentration	90% (+5.5% / -3%)
Battery Duration	Setting 1 - 4.25 hours (4:15) Setting 2 - 2.5 hours (2:30) Setting 3 - 2.0 hours (2:00) Setting 4 - 1.75 hours (1:45) Setting 5 - 1.25 hours (1:15)
Battery Re-Charge	4 - 5 hours
Warm-Up Time	< 2 minutes
O2 Output	Setting 1 - 227.5 mL/min Setting 2 - 420 mL/min Setting 3 - 630 mL/min Setting 4 - 840 mL/min Setting 5 - 1000 mL/min
Limited Warranty	3 years unit 1 year battery & power supplies
