

SPECIFICATION SHEET | NOVO CPAP

THE F&P ICON™ NOVO DELIVERS:

- ThermoSmart™ Technology for more humidity and comfort
- InfoSmart™ Technologies for basic data communication options

PLUS

- Contemporary and stylish design for any bedroom
- Intuitive one-touch navigation with the SmartDial™
- Clock and customizable AlarmTunes™
- Fully integrated design, less fuss and more functionality!

Designed for Life

The F&P ICON™ has been designed from the outside-in to answer the strong call for a contemporary, compact CPAP that blends seamlessly into any bedroom environment, helping to break down some of the traditional resistance associated with CPAP therapy. Inside the F&P ICON™ is a comprehensive set of intelligent technologies, integrated into one stylish solution to deliver new levels of therapy, while effectively meeting your business needs.

More humidity. Less discomfort.

ThermoSmart™ Technology includes an advanced humidification algorithm and a heated breathing tube, which both work to provide optimal humidity and reduce condensation. Patients will benefit from higher levels of humidity¹ for improved comfort^{2,3} and a clinically proven better night's sleep.³

More communication. Less guesswork.

Retrieving compliance data in a timely and efficient manner is crucial to improving patient outcomes and achieving business success. The F&P ICON™ provides a range of solutions to suit varied business needs.

Data Communication

- Telephone reporting: The patient can relay sleep data from the display screen of the device, which can then be verified using the F&P InfoSmart™ software
- SmartStick™: Data download and setting adjustments can be made within F&P InfoSmart™ via the SmartStick™.

Data Reporting

The SmartStick™ utilizes USB technology, which provides large data storage capacity. The F&P InfoSmart™ software provides a range of options to report the data to meet your needs:

- Up to 365 days of compliance summary data
- Cumulative summary data from first use.

FOCUS ON FEATURES

Elbow

Used to connect a ThermoSmart™ or standard Breathing Tube to the device. The Elbow also rotates for a preferred position.

Water Chamber

One-piece chamber. Holds 420 ml of water and is dishwasher safe.

Chamber Lid

Must be correctly fitted for optimal pressure delivery and can also be used as a handle to carry the device.

Menu System

The Home Screen with a clock is the default display. Each point of the clock-face represents the available settings.

SmartStick™ / USB Port

The USB Port houses the SmartStick™ to record patient compliance data.

SmartDial™

Intuitive controls allow one-touch navigation of the Menu System, using a Press, Turn, Press principle.

Air Filter

Ensures the air is filtered from particles and dust.
