

RESMED

Mirage Swift™ Nasal Pillows System

So light, so flexible, and it works!

The Mirage Swift™ Nasal Pillows System is very light, weighing less than 2½ oz (about 70 g).

This exceptional nasal pillows system offers interchangeable tube positions for flexibility and comfort.

The light headgear is uniquely designed for easy fitting—it is simple to put on and take off.

You know you can count on the Mirage Swift for effective performance—it is part of ResMed's trusted range of complete solutions for sleep-disordered breathing.

Soft and secure headgear design

enhances seal and stability, without the need to over-tighten the headgear

Tube with rotating elbow and swivel

offers a greater choice of sleeping positions

Soft and flexible pillow sleeve

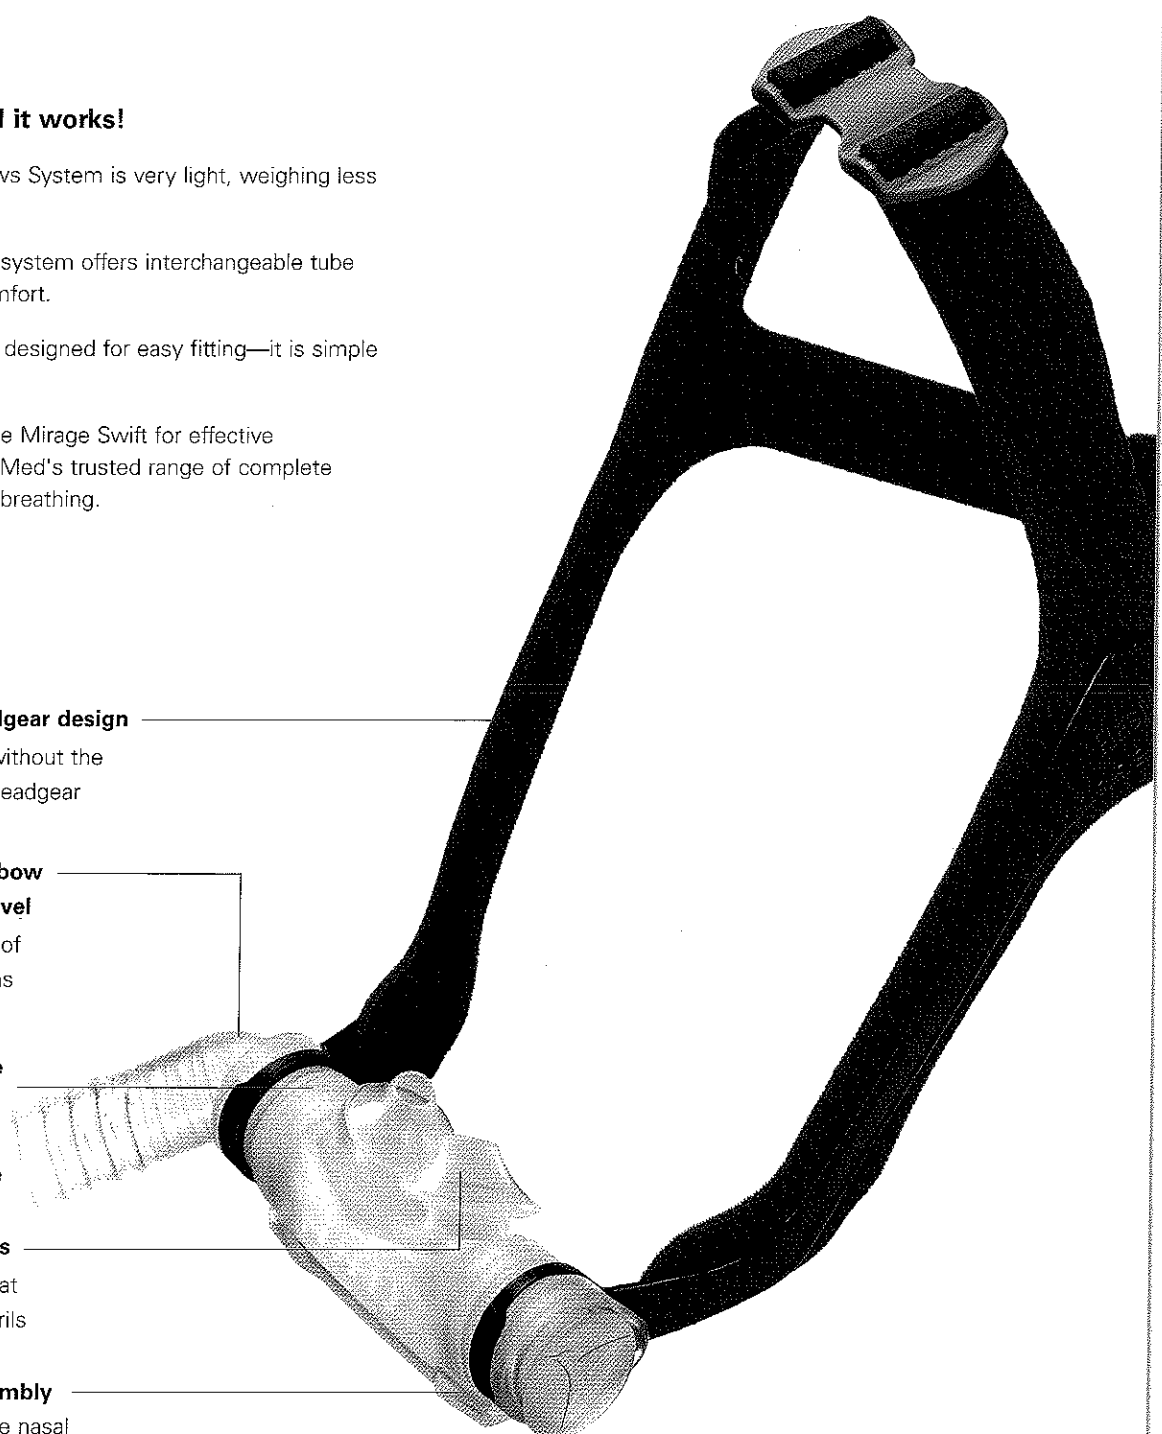

helps the nasal pillows stay in place while applying minimal pressure on the nose

Nasal pillows

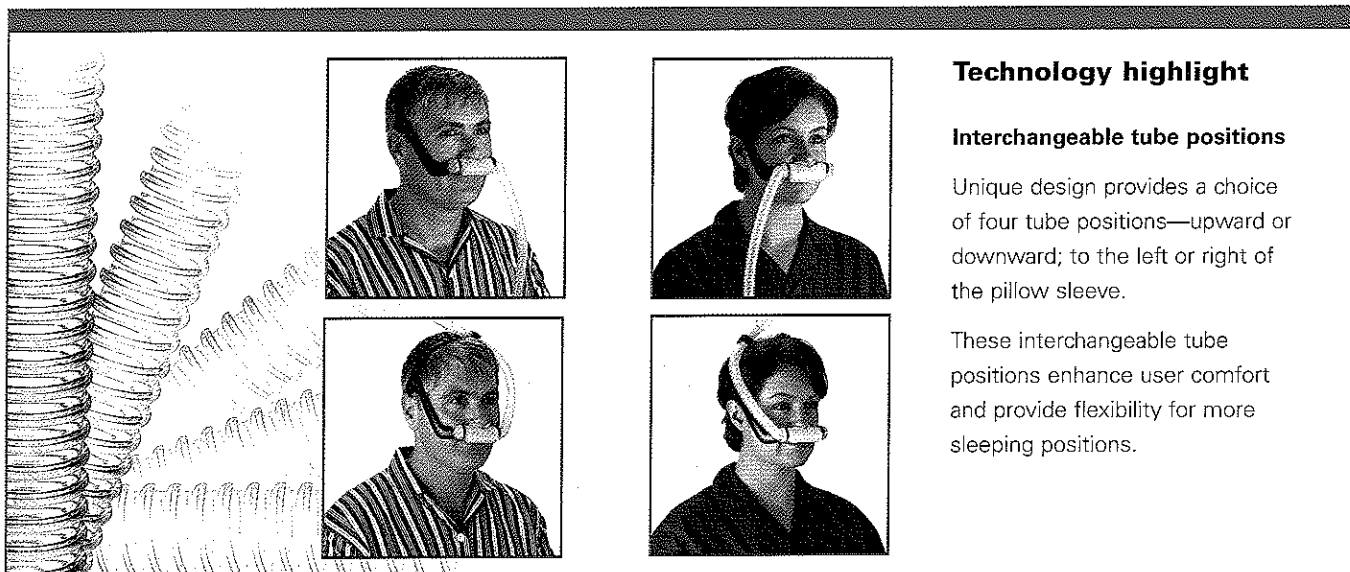

sit flexibly and comfortably at the entrance of the nostrils

Rotating pillow sleeve assembly

enables adjustment of the nasal pillows for optimal seal and comfort

RESMED

Technology highlight

Interchangeable tube positions

Unique design provides a choice of four tube positions—upward or downward; to the left or right of the pillow sleeve.

These interchangeable tube positions enhance user comfort and provide flexibility for more sleeping positions.

Mirage Swift—the next generation choice for your business

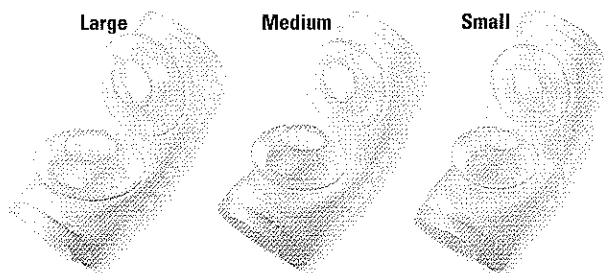

- Quick fitting—after first-time adjustments, the Mirage Swift can be fitted or removed quickly and easily.
- Reduced inventory—three pillow sizes are packed with every Mirage Swift. This eliminates the need for fitting templates and saves fitting time.
- Comprehensive patient support package—the Mirage Swift comes with a quick-fit guide, detailed user instructions, and a CD containing fitting and care information.

Mirage Swift—the next generation choice for your patients

- An effective, unobtrusive alternative to conventional nasal masks
- Unobstructed field of view allows user to wear glasses with the system
- Enhances comfort—pillows positioned at the entrance of the nostrils
- Choice of tube positions allows flexibility in sleeping positions
- Compact and travel-friendly—suits patients who have an active lifestyle
